

Math 10- 33 – CRN (38496)- De Anza College- Winter 2025- Syllabus

Instructor: Reza Shariatmadari

Course Name: Math 10- Introductory Statistics

Class dates: This class runs from January 06, 2025, to March 28, 2025.

CRN/Section: 38496 / 33

Location: E32

Time: Tue/Thu from 4:00 PM to 6:15 PM.

Office Hours: Location: zoom, **Time:** Tuesday from 8AM to 9AM.

Email: shariatmadarireza@fhda.edu

Textbook: None.

Course Description: This course is an introduction to data analysis making use of graphical and numerical techniques to study patterns and departures from patterns. The student studies randomness with an emphasis on understanding variation, collects information in the face of uncertainty, checks distributional assumptions, tests hypotheses, uses probability as a tool for anticipating what the distribution of data may look like under a set of assumptions, and uses appropriate statistical models to draw conclusions from data. The course introduces the student to applications in engineering, business, economics, medicine, education, social sciences, psychology, the sciences, and those pertaining to issues of contemporary interest. The use of technology (computers or graphing calculators) will be required in certain applications. Where appropriate, the contributions to the development of statistics by men and women from diverse cultures will be introduced. This Statistics course is a required lower-division course for students majoring or minoring in many disciplines such as data science, nursing, business, and others.

Course Pre-requisite: Intermediate algebra or equivalent (or higher), or appropriate placement beyond intermediate algebra

Homework Assignments and Projects: Homework problems and projects are integral part of this course. They will be assigned according to our progress in class. They provide practice, help clarify ideas introduced in class or in the text and constitute a partial guide as to what to expect on Quizzes and Exams. You are encouraged to work together to study, do your homework, and project.

Midterms, Exams and Quiz: There will be 3 quizzes this quarter. These quizzes will be given either during regularly scheduled class meetings, as a take home exam, group exam, or any combination of the three. You will be notified in advance about the format of these exams. Quizzes and exams are cumulative. Any change in quiz dates and/or location will be announced in advance.

Tentative Exam Schedule:

Quiz 1: Tuesday, January 28, 2025

Quiz 2: Tuesday February 25, 2025

Quiz 3: Tuesday March 18, 2025

Final Exam: Thursday March 27, 2025, from 4:00 PM to 6:00 PM.

Attendance and class participation: I expect that you attend all my lectures. You are expected to come to class prepared for the day's discussion. Should you miss a lecture for any reason, you are responsible for all the materials covered and given assignments. I suggest that you contact your group members to find out about the material that you have missed. I will not repeat any lectures under any circumstance, neither in class nor during my office hours.

My Expectations:

By the end of this quarter, I would like you to be able:

- 1- To match key terms to the appropriate concepts and definitions.
- 2- To define key terms in your own words.
- 3- To recognize and use concepts and procedures correctly in new situations appropriate to your discipline.
- 4- To break larger issues and problems into their component parts to facilitate problem solving and deeper understanding.
- 5- To combine concepts and procedures from this class in new ways so you can solve problems and create new ways of seeing the course content.
- 6- To compare and contrast information in such a way that allows you to solve problems and accomplish your goals.
- 7- Finally, one of my objectives is for you to develop self confidence in your abilities to learn mathematics mainly by reading, thinking, and asking questions, rather than memorizing bunch of formulas.

Course Policy:

- 1- No late work will be accepted under any circumstances nor credit given for late homework and assignments.
- 2- No make-up quiz or exam will be given under any circumstances.
- 3- To submit any document to Canvas, make sure your document is saved as a pdf. Any other types of file format will not be accepted by Canvas.
- 4- You are responsible for keeping up with course materials, catching up with subjects and ideas that you have missed. You should practice as much as possible.
- 5- I reserve the right to make changes to the syllabus at any time. You will be notified via Canvas announcement about any changes on the syllabus.
- 6- I will not discuss your grades via email for security and privacy reasons so you must consult with me (on zoom) about your standing in class and your grade throughout the quarter. I strongly suggest that you do not leave anything for the last minute.
- 7- This class is a face-to-face, in-person class and your participation is essential and expected.
- 8- Class sessions and lectures are not recorded.
- 9- If you miss any class, you are responsible for catching up and finding what you have missed. You should start by getting the class notes from one of your classmates. Read those notes and write any questions you have so you can ask them during the office hours.
- 10- Office hours are on zoom. Come to office hours as much as you can and as often as you can and ask question. I strongly believe that there is no right or wrong question and there is no smart or stupid question. All questions are welcomed in this class, and I will do my best to answer any question that you have no matter how elementary it may sound.
- 11- If you have an obligation (work related activity, DA sport related activity, medical reasons, or conflict with other classes) that prevents you from attending office hours, or if you have a private issue to discuss, you can always send me an email and set up a 5-minute private meeting on zoom.
- 12- You are responsible for keeping up with important dates on academic calendar.

Few tips on how to succeed in this class:

Your success in my class is extremely important to me and I will do everything in my power to help you achieve your goals. Here are few tips on how to succeed in this course:

- 1- Be an active learner, don't memorize, learn the concepts.
- 2- When you try to solve a problem, make sure you understand what the problem is asking for. Read the question multiple times if needed. Think about how you are going to solve the problem, and what is your strategy for solving the problem.
- 3- Don't be afraid of making mistakes. You may not be able to solve a problem on the first try and that's okay. Try again. No matter what, never, ever give up.
- 4- Your participation is essential. Your progress depends entirely on your commitment both inside and outside the classroom. I expect you to spend at least 2 hours outside of class, studying for every lecture.

Academic Integrity: Students are reminded that their behavior always reflects upon the college community. The minimum penalty for cheating, plagiarism, etc. is a grade of zero on the assignment. For additional information on the college's policies, read the Ethics and the Academic Integrity Policy at <http://www.deanza.edu/studenthandbook/academic-integrity.html>.

Grades: Course grades will be determined by homework, projects, quiz, and final exams. Your grade is always available to you on Canvas. General guidelines are as follows:

Homework Assignments: 10%

Quiz 1: 15%

Quiz 2: 20%

Quiz 3: 25%

Final Exam: 30%

Your Course letter grade will be determined based on the following percentiles:

(A) 94% to 100%

(A-) 90% to < 94%

(B+) 87% to < 90%

(B) 84% to < 87%

(B-) 80% to < 84%

(C+) 77% to < 80%

(C) 74% to < 77%

(C-) 70% to < 74%

(D+) 67% to < 70%

(D) 64% to < 67%

(D-) 60% to < 64%

(F) 00% to < 60%

IMPORTANT:

All Quiz and Exams are for your exclusive use only. Meaning you are not allowed to share them with anyone, post them online, or share it using any other means without my written and verbal permission. You can keep quiz and exams only for your own personal use.

To receive full credit or partial credits, you must show your work step-by-step and in detail. Write Clearly and neatly. If you just write a final answer without showing detailed work, you will not receive any credits.

If I can't read your work or if your work is not clear, I will not grade it and you will receive a score of zero.

When applicable, box your final answer.

Academic Integrity:

“You will be required to comply with all De Anza rules and regulations, especially the section on academic integrity http://www.deanza.edu/policies/academic_integrity.htmlLinks to an external site.

All information at the policies webpages applies in this course and students will be held accountable for this information.

You will find descriptions of cheating and plagiarism: “Cheating is the act of obtaining or attempting to obtain credit for academic work through the use of dishonest, deceptive or fraudulent means... Plagiarism is representing the work of someone else as your own” (and the webpages give many detailed examples), and these statements: “Academic and/or administrative sanctions may be applied in cases of academic dishonesty.

- Academic consequences may include
- Receiving a failing grade on the test, paper or exam
- Having course grade lowered
- Administrative consequences may include
- Disciplinary probation
- Disciplinary suspension
- Expulsion

Students may also be subject to arrest or monetary fines if the academic dishonesty offense violates state or federal law.”

Disability Support Services (DSS):

De Anza College views disability as an important aspect of diversity, and the college is committed to providing equitable access to learning opportunities for all students. Disability Support Services (DSS) is the campus office that collaborates with students who have disabilities to provide and/or arrange reasonable accommodations.

If you have, or think you have, a disability in any area such as, mental health, attention, a learning disability, chronic health, sensory (e.g. hearing or vision), or physical, please contact DSS to arrange a confidential discussion regarding equitable access and reasonable accommodations.

If you are registered with DSS and have accommodations set by a DSS counselor, please be sure that your instructor has received your accommodation letter from Clockwork early in the quarter to review how the accommodations will be applied in the course.

Students who need accommodated test proctoring must meet appointment booking deadlines at the DSPS Testing Center.

- Exams must be booked at least five (5) business days in advance of the instructor approved exam date/time.
- Final exams must be scheduled seven (7) business days/weekdays in advance of the instructor approved exam date/time.
- Failure to meet appointment booking deadlines will result in the forfeit of testing accommodations and you will be required to take your exam in class.
- Contact the DSS if you cannot find or utilize your MyPortal Clockwork Portal.

DSS strives to provide accommodations in a reasonable and timely manner, some accommodations may take additional time to arrange. We encourage you to work with DSS and your faculty, as early in the quarter as possible, so that we may ensure that your learning experience is accessible and successful.

Recording Policy:

"To ensure compliance with the Family Education Rights and Privacy Act (FERPA), student recording of class lectures or other activities is generally prohibited without the explicit written permission of the instructor and notification of other students enrolled in the class section. Exceptions are made for approved accommodations under the Americans with Disabilities Act. Recording of lectures and other class activities may be made by faculty to facilitate instruction, especially for classes taught remotely through Canvas. Participation in such activities implies consent for the student to be recorded during the instructional activity. Such recordings are intended for educational and academic purposes only."

Student Disruptions:

"The college will enforce all policies and procedures set forth in the Standards of Student Conduct (<https://go.boarddocs.com/ca/fhda/Board.nsf/goto?open&id=9U2UC77B2DA5>Links to an external site.) Any student disrupting the class may be asked to leave that class. Administrative follow-up may result."

"If disruptive behavior occurs in a class, "the instructor may remove the student from his or her class for that day and the next class meeting if the student interfered with the instructional process," and the behavior will be reported to the Office of Student Development for possible disciplinary action/reprimand/suspension."

"It would be impossible to list all the ways a student could be disruptive, but the basic definition is: a disruptive person is one, who through his/her behavior, speech or actions, interferes with academic activity."

(And see:

California Education Code, ARTICLE 3. Removal, Suspension, or Expulsion 76032

Student Learning Outcome(s):

- Organize, analyze, and utilize appropriate methods to draw conclusions based on sample data by constructing and/or evaluating tables, graphs, and numerical measures of characteristics of data.
- Identify, evaluate, interpret and describe data distributions through the study of sampling distributions and probability theory.
- Collect data, interpret, compose and evaluate conjectures, and communicate the results of random data using statistical analyses such as interval and point estimates, hypothesis tests, and regression analysis.
